

VISIT FROM ASIA PACIFIC MEDICAL TECHNOLOGY ASSOCIATION (APACMed) & DRUG REGULATORY AUTHORITY PAKISTAN (DRAP) TO MEDICAL DEVICE AUTHORITY (MDA)

4 August 2022, Cyberjaya – Medical Device Authority (MDA) received a visit from the Asia Pacific Medical Technology Association (APACMed). Present online was the Drug Regulatory Authority of Pakistan (DRAP). The meeting was managed by Chief Executive YBrs. Encik Ahmad Shariff Bin Hambali, and attended by MDA employees from the Pre-Market Control and Basic Division, International Relations and Industrial Facilitation.

The purpose of this meeting was to discuss the goals of Regulatory Reliance in the field of medical devices based on Good Reliance Practice (GRoP) and explore opportunities for collaboration between MDA and DRAP. Many issues and strategies were discussed in this meeting to ensure more efficient supervision through improving the next medical device regulatory system and increasing access to safe and guaranteed medical devices.

This agreement also had a positive impact on MDA for initiatives towards Regulatory Reliance in efforts to harmonize and improve supervision for medical devices at the international level.
