

SPOTLIGHT AUSTRALIA

In collaboration with: MTAA The Medical Technology Association of Australia

FOCUS INITIATIVE

Defining a Reimbursement Pathway for Digital Health Solutions

HOW WE ARE DOING THIS

We work with stakeholders in Australia

Collectively defining a framework for Australian policy makers on shared learnings

Bringing together key experts in our policy round tables to share best practices from around the globe

Identifying a specific area (technology / disease) to collaborate on

OTHER INITIATIVES 2023

Accelerating access of next generation sequencing

Understanding the challenges in Environment, Social and Governance, starting with environmental stewardship, to prepare recommendations on a collective path forward for the industry in Australia.
