Meet Your New Strategic Partnerships Manager!

Candy Gan

MANAGER - STRATEGIC PARTNERSHIPS

- Joined APACMed in Feb'22 - previously from MOH
- Focus at MOH: healthcare service regulations, comms & engagements
 - Started 2 COVID response teams: (1) private vehicle fleet (*GrabSHN predecessor*) and (2) national telemedicine service (HRP predecessor)
- BSc & MSc at the London School of Economics (LSE)
- Hobbies: volunteer career mentor, salsa dancing, spoken word poetry
- Shanghai-raised

Candy joined APACMed's Strategic Partnerships team in February 2022. Previously, she worked on healthcare services regulations at the Singapore Ministry of Health (MOH). Specifically, regulatory approaches, opportunities and risks for digital health (telemedicine, AI); implementing the Healthcare Services Act (HCSA); and as part of MOH's COVID-19 response, she helped operationalise 2 pandemic response teams.

Candy holds an MSc in Global Health Policy and a BSc in Politics and Philosophy from the London School of Economics and Political Science (LSE).

Reach out to Candy at cgan@apacmed.org for APACMed partnerships / collaborations, membership queries, start-up events and benefits.

Upcoming Events - Details

[POSTPONED TO END-MARCH] Alira Health - Webinars on Expanding Beyond APAC

In this series, Alira Health shares strategies, challenges and best practices of entering new markets and scaling beyond Asia Pacific. Their first session covering *Capital Raising from US, EU and UK for Asian MedTech Start-ups*, will be held in **March**.

Stay tuned for the registration link and additional exclusive benefits for webinar attendees!

MedTech Venture Hour - Coming soon from APACMed x Deloitte

showcase their innovative products and services, and connect with potential investors and other MedTech professionals. More information will be provided shortly.

As an APACMed member, you will also benefit from Deloitte's insights and updates on the MedTech sector. APACMed is pleased to have Deloitte as one of our knowledge partners.

APACMed Member Exclusive: Complimentary Access to LSI Co-Working Lab & Operating Theatre

Life Science Incubator (LSI) is Singapore's newest state of the art co-working laboratory and operating theatre, part of Singapore's Life Science Hub. They facilitate MedTech, BioTech and FoodTech start-ups to access affordable and agile spaces and services, acting as a crucial stepping stone for companies as they grow and scale.

Key features:

- Surgical lights and pendant, general surgery operating table
- Flexible endoscope and bronchoscope
- Laparoscopic imaging system (3d/4k/ICG)
- Training boxes for multiple training modules

If you want to:

- Trial, test and validate your solutions
- Educate potential users
- Demo your digital health solutions onsite

STAY TUNED for an exclusive open-house in April for APACMed members! You can tour the space, learn more about LSI's features and secure complimentary access passes to use the facilities. More details to be released in March.

Member Spotlight

Medical devices are important tools for patient livelihoods and well-being. But transit risks such as humidity, vibrations, dust and duration, can compromise their effectiveness especially as more supply chains intersect.

KOCH Singapore Packaging Systems Pte Ltd ('KOCH') – a subsidiary of KOCH Pac-Systeme GmbH, works to mitigate these risks. KOCH offers customised, scalable and sterile packaging systems for medical devices manufacturers, to make the delivery from manufacturer to medical professional safe and secure. They protect device sterility, by including optimal forming, filling and sealing processes in each of the packaging systems produced.

Learn more about KOCH at <https://koch-pac-systeme.com/en/>

Digital Health Regulation In Asia-Pacific: China and Korea

The APACMed Digital Health Committee reviewed Korea and China's regulatory approaches for Software As Medical Device (SaMD), as part of the call for fit-for-purpose regulatory frameworks for digital health solutions.

Available in English, Chinese and Korean.
